To All Lea County State Bank Customers:

Recently, Equifax, one of the three national consumer credit reporting agencies, announced a major data breach. This breach affects approximately 143 million Americans. This is what we know according to Equifax: the data breach occurred May – July 2017, and the information stolen includes consumers' personally identifiable information, including names, Social Security numbers, and dates of birth, addresses and, in some cases, driver's license numbers. Approximately 209,000 credit card numbers and dispute documents with personally identifiable information for approximately 182,000 consumers were also stolen. There is no evidence of unauthorized access to consumers' credit reporting databases.

To be clear, Lea County State Bank was not compromised and your information was not stolen from our bank. However, Lea County State Bank takes the security of our customer's information very seriously, and we are providing you with the information we know about this massive breach and the steps you can take to protect your personally identifiable information if you so desire. Following this unprecedented breach, we are also asking our customers to be extra vigilant and report any suspicious activity in your Lea County State Bank accounts by calling 575-397-4511 or visiting our main branch in Hobbs or our Lovington branch.

Equifax has established a website that informs consumers if they may be affected by the breach, provides additional information on the breach, and offers complimentary identity theft protection and credit file monitoring.
